

12-42F

Project Name:	<i>Data Collection Survey on Agro-products Distribution System of Food Industry in Republic of Indonesia</i>		
Country:	Indonesia		
Status:	Leading Firm	Associate: IC Net	
Project Duration:	Current Year	Start Date:	End Date:
FY 2012	Single Year (Final)	2013.1.15	2013.7.24
Assignment Description By reviewing existing documents and conducting interviews with persons involved in the Indonesian food industry (e.g., private enterprises, government agencies, and donors) and farm producers, this research aims to collect fundamental information on the retail of fresh food supply chain in Indonesia and food service industries. Furthermore, it strives to analyze the stakeholders' needs and impediments for a stable and efficient local procurement of fresh food. The information collected through this research is to be utilized to discuss JICA's future cooperation policy in the area of agriculture and rural development in the Southeast Asian countries that are relatively developed. Additionally, the development path and current status of Thailand's distribution system of agriculture and fishery products are studied for other ASEAN members including Indonesia. Moreover, its effects on business development of Japanese companies and Japanese cooperation policy are examined.
