<b>Project Name:</b>	<i>The Project for the Comprehensive Transport and Trade System Development Master Plan in the United Republic of Tanzania</i>		
<b>Country:</b>	Tanzania, Brundi		
<b>Status:</b>	Associate Firm	Leading: PADECO Associate: Nippon Koei	
<b>Project Duration:</b>	<b>Current Year</b>	<b>Start Date:</b>	<b>End Date:</b>
FY 2011	Single Year (Final)	2011.8.12	2014.3.24
<b>Assignment Description</b>			
<p>The objectives of the study is to prepare the future vision of economic corridor development and the logistics strategy; to build a nation-wide logistics master plan focusing on the competitiveness of the cross-border corridors; and to build administrative capacity (planning and implementation) of the institutions relevant to logistics planning. More specifically, the following outcomes are expected:</p> <ol style="list-style-type: none"><li>1)By focusing primarily on the logistics of the corridors, construct reliable OD (Origin and Destination) data by mode/corridor and logistics data</li><li>2) Building a logistics strategy centered on the corridors and reviewing the relevant institutions, organizations and policies in line with this strategy</li><li>3) Preparing a master plan to facilitate the logistics both on the hard and soft fronts and to identify priorities and leading projects</li></ol> <p>It is also expected that the administrative capacity of the counterpart institutions in Tanzania will be enhanced from 1) ~ 3) above.</p>
